Dear The Federal Communications Commission,

My wireless carrier tells me I'll be paying an additional tax on my cell phone. Just like the tax the Clinton administration added to my Home,land line. I don't believe for one second that whatever you intend to do with this bill/law is anything more than an "UP Yours" to the public. KNOCK IT OFF and use your time to pass the FAIR TAX Bill.

You now the one. Don't pretend you don't. And don't think I'm not going to vote against any party that doesn't support it.

Tell your friends, tell your lawyers. Get it done! LEAVE THE REST ALONE! You'll get plenty of money to spend without this nickel and dime stuff.

Ahhhhhhggggg..this makes me so angry!

Sincerely,

Gary Lee Reed
